I want to take this opportunity to thank you for agreeing to supervise one of our students this semester. I have spoken with you at least once this semester to make certain that everything has been going smoothly. However, I would now like to ask you to take a few minutes to give me your evaluation of the student's performance with reference to their strengths and weaknesses and of The Capstone Experience in the Environment Program in general. It is only through your honest evaluation that the faculty will be able to be assured of a quality program. We always seek to improve.
