

The Environment Program Across Disciplines at Loyola

How does engaging with the environment
take shape across very different disciplines?

Thursday, October 5, 2017
12:30 p.m. – 1:30 p.m.
Monroe Hall Room 610

Join a roundtable discussion with three of the newest members
in Loyola's Environment Program:

Dr. Lynn Brien (Environment), Dr. Phil Bucolo (Biology), and
Dr. Joel MacClellan (Philosophy) will briefly present their
backgrounds, share a personal story about their own
environmental engagement, and then engage
the audience in discussion.

Dr. Christopher Schaberg (English) will moderate the discussion.

A light lunch will be served. Learn more at cas.loyno.edu/environment
