

Program Funding for Interdisciplinary Minors

The College of Arts and Sciences has funding in support of Interdisciplinary Minor Programs (IMP) and related projects. IMPs without a home academic/sponsoring unit can request funding for projects for up to \$1,000, in support of a variety of projects.

IMPs can request funds for one project with priority date September 30, using the ***Interdisciplinary Minor Funding Request Form*** available in the CAS Intranet. Please submit this form to the Dean's office for approval.

After September 30th, programs can continue to request funding for a first or second project while funds are available using the same form.
